

StormPit®

SURFACE WATER SUMPS

Built for Compliance.

StormPit® Type Two

The APD StormPit® Range Has Been Designed to Make Your Job Easier!

Don't be fooled by non-compliant sumps and ensure you are complying to 'NZ Building Code E1 Surface Water' by installing the APD StormPit® Type Two sump today.

Benefits

- Lightweight, sump and riser are only 45kg - an easy two person lift.
- Will fit a range of Class D 600mm opening round grates.
- Rectangular grates are also available in both flat and concave Class D.
- Anti-flotation ring, no additional concrete required.
- Made in NZ of durable recyclable polyethylene.
- Manufactured from water tank grade PE material suitable for below ground installations.
- Producer Statement 1 is available from www.apd.co.nz

**Lighter!
Easier!
Faster!**
